

FROM LEFT: When you can drag yourself away from the water, indulge in the resort's world-class dining; the sparkling adults-only pool

H2O heaven

Whether you're ocean bound or indulging in a hydromassage, water is the ultimate therapy for mind, body and soul – and it's found in abundance at Cable Beach.

There are myriad ways to soak up heavenly waters at pristine Cable Beach in Western Australia – your only decision will be which body of water to take a dip in first. Hydrate sun-kissed skin at an award-winning spa, bask in a sparkling adults-only pool, or dive into the crystalline turquoise waters of Cable Beach. You can do all three on repeat at Cable Beach Resort & Spa, tucked away along Broome's stunning coastline. The resort promises spectacular sunsets, white sandy beaches, world-class dining and as much water therapy as you can handle. This tropical haven is closer than you think, with direct flights to Broome from Perth, Sydney, Melbourne and Singapore.

From oceanside studios and romantic villas to spacious suites, Cable Beach Club Resort & Spa boasts accommodations to suit all travel tastes. The most opulent

lodgings are the residence-style adults-only villas that feature plunge pools, private courtyards, kitchenettes and living rooms. Relax in total privacy on a sun lounge, recuperate in the spa bath or indulge in a steamy outdoor shower. Come evening, excellent dining options await. Cichetti offers a candlelight ambience and modern Italian fare, while the Sunset Grill serves up garlic chilli tiger prawns and smoky Lebanese eggplant against a panoramic ocean backdrop. Make sure to try Kichi Kichi, which serves up mouth-watering Thai cuisine amongst the verdant greenery overlooking the family pool.

The resort's Chahoya Spa offers a tranquil space for restorative relaxation. From body scrubs and wraps enriched with Kakadu plum and shea butter to mandarin oil massages and anti-ageing facials, the

spa menu is brimming with nourishing treatments. Allow water to flow over the length of your body and relieve muscle tension during a soothing hydrotherapy session, which can also be enjoyed by couples in the twin Vichy shower room.

If you can pull yourself away from the resort, Broome is home to a wealth of stunning seaside sights. Follow coastal trails and marvel at the remarkable Horizontal Falls, a unique natural phenomenon that ebbs and flows with each tide. Or, discover a pearl oyster nursery before cruising alongside live oysters in their natural environment with Willie Creek Pearl Tours. At the end of the day, return to the warm embrace of the resort and watch the sun fall gently below that stunning azure seashore. cablebeachclub.com
